

OTL Dental Wing (“ODW”) is operational since 2006. The core objective behind the establishment of Dental wing is to equip the dental surgeons with latest dental innovations through continued dental education. ODW is carrying varied dental related educational activities under the name of Dental Education Forum (“DEF”).

OTL Dental Wing has come a long way since its establishment and has managed to make inroads into various areas of dentistry and has redefined the standards by introducing state of the art technology. The special areas under focus are orthodontics, implantology and cosmetology. ODW is not just catering participants from Pakistan but has managed to attract international participants from Afghanistan, UAE and Saudi Arabia.

The clinical workshops are conducted in various clinical setups and in hospitals in conformance with highest possible standards.

Regards

ODW
